EDUCATION & RELEVANT COURSES

University of California, Santa Cruz

Class of 2026

Bachelor of Science, Computer Science: Game Design

Santa Cruz, CA

- Member of the Game Design and Art Collaboration
- Member of the Tabletop Game Association

Relevant Courses:

- CPM 120 & 121: Game Development Experience & Patterns
- CPM 146, 150, & 176: Game AI, Audio, & Systems
- CPM 150: Game Audio
- CPM 170: Rapid Prototyping
- CPM 171: Game Design Studio
- CPM 172: Game Production Studio

EXPERIENCE

Pinballistic

January 2026 – Present

Lead Audio Designer, Game Designer

Santa Cruz, CA

- As Lead Audio Designer, I am responsible for all game audio, from SFX to music production and composition.
- As a Game Designer, I work with the rest of my team to refine the idea of a “pinball roguelite” into a unique buildcrafting experience, providing numerous designs that are now core concepts for the game.
 - In this capacity, I excel at leading playtests and turning valuable player feedback into actionable goals.

Whiting's Foods

November 2023 – Present

Store Lead, Concessions

Santa Cruz, CA

- Whiting's Foods handles concessions for the Santa Cruz Beach Boardwalk and the Kaiser Permanente Arena.
- As Store Lead, I make sure to be available for any questions my team may have about their responsibilities that day and give direction to any team members who haven't worked in my store before.
- Additionally, I keep my store clean and well-stocked throughout service, and lead my team in closing by properly delegating tasks and setting a good example by taking care of more experience-reliant ones myself.

Annesso Pizzeria

July 2021 – August 2022, Summer 2023 & 2024

Backwaiter

Fresno, CA

- Annesso is an Italian restaurant that blends comfort and quality by putting excellent service and food above all else.
- As a backwaiter, I worked in a team-based environment to ensure a clean and inviting dining room. I greeted patrons as they were sat, and assisted all fellow employees from servers to bar staff to ensure a smooth dining and working experience for all involved.
- The quality of my work at this position has meant that I was invited back multiple summers even after leaving for college in August of 2022. In the most recent of these periods, I trained four new employees, who became effective workers and responsible team members.
